**Description of Activity:**

We performed a full count of 65,777 bars of gold, based upon the gold inventory as at 29<sup>th</sup> June, 2018. The audit was completed on the 30<sup>th</sup> September, 2018 at the Custodian's premises and performed certain procedures including but not limited to the following:

- The gold inventory records of Bank of New York Mellon (the "Trustee") were reconciled to the records of the Custodian.
- Each individual gold bar in the gold count was agreed to the records of the Custodian as being held in the name of the above mentioned account. The bar number, refiner code and purity of each bar were checked against the records of the Custodian.
- A random sample approx. 2.5% of the total holdings was weighed and the weight checked against the custodian's holdings.
- The records of the Trustee as at 29<sup>th</sup> June, 2018 were reconciled to the records of the Custodian as at 30<sup>th</sup> September, 2018 being the last day of the gold count.
